

Course Details

ID: 030103054

Curriculum: Lubrication

Sub-category: Bases

Course Description

Polyethylene oxide (PEO) overview, evaluation, and associated safety data sheet(s).

Course Objectives

After completing this lesson, you will be able to accomplish the following tasks:

- List health-related concerns associated with PEO-based lubricants.
- Identify at least one brand of PEO-based lubricant.
- Contrast the four major alphabet lubes based on characteristics such as shelf life, cost/value, and potential health concerns.
